MOLI Integrated Printing

every printed document automatically linked to the digital record

Print-optimized layouts, Zebra printer support, and automatic physical-to-digital linking — built in.

Paper That Knows Where It Came From.

Every document MOLI prints — from quality reports to barcode labels — carries a traceable link back to the digital record that generated it.

No reconciliation, no lost context: when someone picks up the paper, the full digital history is one scan away.

Turboencabulator [TE-4700-ASM] (rev D)

Is Active: Yes
Item ID: 12
Lot Tracked: No

Created: 2025-10-31 18:44:07 Modified: 2026-05-26 16:15:43
UUID: f663a921-15f9-4c50-bdb2-b35a28b631d9

Based on the principle of power generation by the modial interaction of magnetoreluctance and capacitive duractance, the Turboencabulator negates the relative motion of conventional conductors and fluxes. It consists of a baseplate of prefabulated Amulite, surmounted by a malleable logarithmic casing in such a way that the two main spurving bearings are aligned with the panametric fam.

Item Type:	Prototype
Name:	Turboencabulator
Revision:	D
Code:	TE-4700-ASM
Customer:	Perdix Software
UPC: Universal Product Code	720801260013
EAN: European Article Number	5054283612905
HS Code: World Customs Organization (WCO) Harmonized System (HS) Code for export classification	2843.21.00
Country of Origin:	United States of America
Active Instructions:	Turboencabulator Assembly Instructions (rev. 1 (2025-10-31))

Critical Dimensions:

Width 9.3785 inch × Height 15.6125 inch
Weight 8.4000 kilogram @ UOM each

HOW IT WORKS

For most applications, simply exporting the **PDF version** and printing it is the preferred option. Kiosks can also be configured with a standard network printer to support **printing PDFs directly from the Kiosk**.

MOLI's **print stylesheet** also ensures that every MOLI view is natively print-ready.

All **printed copies automatically include barcodes** that link back to the digital record.

For printing barcode labels, MOLI's built-in **Barcode Printer** supports printing individual and series labels to any Zebra® printer via ZPL, or via PDF to any IPP / RAW networked printer.

Each print is fully logged and can be viewed and reprinted later.

Paper and digital aren't opposites. **Bridge them intelligently.**
