⚑ Tablet-Based Fixed Workstations Add Complexity (and Cost)

Tablets are built for mobility, and ship without two critical systems a fixed workstation requires: a **docking and power solution** (a cradle to hold and power the device continuously at a fixed location) and a **mounting interface** (tablets use AMPS, not VESA, so standard mounts require adapter kits or different brackets entirely). Both add cost and a layer of vendor fragmentation that the Elo I-Series sidesteps. Additionally, **lithium-ion batteries**, while great for mobility, degrade when maintained at full charge and can develop swelling that affects both safety and device life. The Active5 Pro addresses this concern with an optional "No Battery Mode" while the I-Series has no battery to manage.

WHY THE ELO I-SERIES 5 IS THE RIGHT CHOICE FOR PERMANENT WORKCENTER INSTALLATIONS

- **Simplified installation**
  - VESA 75mm (10") or 100mm (22") — compatible with wall mounts, desk mounts, pole mounts, T-slot arms, shelf mounts, floor stands, and more... all standard, tested, and part of our catalog
  - Built-in Gigabit Ethernet for reliable wired connectivity
  - PoE models: one Ethernet cable carries both data and power
- **Purpose-built for demanding environments**
  - Designed for continuous 24/7 operation over many years
  - Steel variants add stainless chassis, chemically-strengthened glass, and IP65/IP54 ingress ratings
  - Elo Edge Connect peripherals attach securely to the edges of the screen: barcode scanner, RFID/NFC reader, magnetic stripe reader, audio adapter, status light

CHOOSING THE RIGHT DEVICE — TYPICAL DEPLOYMENT COST PER WORKCENTER (MSRP)

Elo I-Series 5 — 21.5" Standard (E541463)

Device MSRP: $1,932
Mount: T-slot $100 – Ergotron sit-stand $490
Docking system: **n/a — fixed device**
MDM (EloView): **included in MOLI license**
Ethernet: **built-in**

TYPICAL DEPLOYED COST

~$2,032-2,422

Best for: work instructions, shared workstations, production locations.

Elo I-Series 5 — 21.5" Steel + PoE (E176640)

Device MSRP: $2,322
Mount: T-slot $100 – Ergotron sit-stand $490
Docking system: **n/a — fixed device**
MDM (EloView): **included in MOLI license**
Power drop: **one Ethernet cable**

TYPICAL DEPLOYED COST

~$2,422-2,812

Best for: machine-side installs, washdown environments, anywhere a power drop is impractical.

Elo I-Series 5 — 10.1" Standard (E539154)

Device MSRP: $1,254
Mount: T-slot $100 – Ergotron sit-stand $490
Docking system: **n/a — fixed device**
MDM (EloView): **included in MOLI license**
Ethernet: **built-in**

TYPICAL DEPLOYED COST

~$1,354-1,744

Best for: permanent workcenters, quality inspections, visitor kiosk, timeclock.

Elo I-Series 5 — 10.1" Steel + PoE (E177025)

Device MSRP: $1,670
Mount: T-slot $100 – Ergotron sit-stand $490
Docking system: **n/a — fixed device**
MDM (EloView): **included in MOLI license**
Power drop: **one Ethernet cable**

TYPICAL DEPLOYED COST

~$1,770-2,160

Best for: machine-side installs, washdown environments, anywhere a power drop is impractical.

Samsung Tab A9 (SM-X110)

Device MSRP: $191
Powered charging dock: **+$60–120**
Tablet mount + AMPS adapter: **+$80–130**
MDM (Knox): **included in MOLI license**
Ethernet: **not available**

TYPICAL DEPLOYED COST

~~$331-441

Best for: essential mobile use, temporary stations, or budget-constrained locations with reliable Wi-Fi.

Samsung Active5 Pro (SM-X350)

Device MSRP: $829
POGO charging dock: **+$100–150**
Tablet mount + adapter kit: **+$80–130**
MDM (Knox): **included in MOLI license**
Ethernet: **not available**

TYPICAL DEPLOYED COST

~~$1,009-1,109

Best for: field mobility, shared handhelds, or cost-optimized locations with reliable Wi-Fi.
