CONTINUOUS OPERATION	Designed for 24/7 use No battery; powered continuously; no thermal throttling concerns at rated use	Varies by unit Office equipment	Not rated for 24/7 Consumer device	Not rated for 24/7 Consumer device
WARRANTY	2 yr standard 5 yr EloCare + AUR available	90 days – 1 year Limited Consumer or Business warranty; varies by retailer		

⚑ When displays fail, so does oversight.

Mini PCs are built for the office. Consumer sticks and streaming dongles are built for the living room. **Thermal throttling, spontaneous reboots, and end-of-life Android versions are the norm — not edge cases.** The Elo Backpack® 5 is engineered for continuous commercial operation, managed centrally through EloView alongside your fixed kiosks and mobile devices, and backed by a full-service warranty. A failed signage display during a shift is a blind spot — and a liability during an audit.

WHY THE ELO BACKPACK® 5 IS THE RIGHT CHOICE FOR MOLI DIGITAL SIGNAGE

Purpose-built for the production floor

- Sturdy chassis attaches directly to the rear of any VESA display — no external boxes, cable clutter, or shelves required
- Rated for continuous commercial operation — designed to run 24/7 without the thermal issues endemic to consumer sticks
- Same platform as the I-Series 5 kiosks and M51 handheld — unified device performance, lifecycle, and quality across your entire MOLI hardware fleet
- Android 14 with long-term update commitment — not a consumer lifecycle device

What MOLI puts on your displays

- **Production & Machine Status** — job progress, machine states, workcenter overview
- **Escalations** — all open issues visible facility-wide; no one misses a help request
- **Headcount** — real-time attendance and visitor summary; supports evacuations
- **Skill Matrix** — who's trained at what level
- **Training Verifications & Assessments** — whose training needs attention
- **Weather, Bus Arrivals, Traffic Cameras** — keeps team aware of what's outside the building
- **Public Emergency Alerts** — integration with FEMA's IPAWS ensures your team is aware of severe external threats to their safety, life, or property

CHOOSING THE RIGHT DEVICE — TYPICAL DEPLOYMENT COST PER DISPLAY (MSRP)

Elo Backpack® 5 (E620713) — MOLI Preferred

Device MSRP: $870
5 yr EloCare + AUR (E897104): **+$130**
Display (not included): **market price varies**
SIM90 mount (60-600-009) (if needed): **+$310**
MDM (EloView): **included in MOLI license**

TYPICAL DEPLOYED COST (+ DISPLAY)

~$870-1,249

Best for: every MOLI Digital Signage location — production, office, breakroom, lobby.

Mini-PC / SBC (e.g. NUC, Raspberry Pi)

Device cost: **$200–450**
Mounting / enclosure: **+$40–80**
MDM: **additional licensing required**
MOLI setup / validation labor: **not included**
Extended warranty: **not available**

TYPICAL DEPLOYED COST (+ DISPLAY)

~$240–530

Not certified. Requires manual configuration, validation, and separate MDM.

Android Signage Stick (Amazon, eBay, various)

Device cost: **$75–200**
Case / power adapter: **+$20–30**
MDM: **limited or not available**
Extended warranty: **not available**
Replacement cycle: **12–18 months typical**

TYPICAL DEPLOYED COST (+ DISPLAY)

~$95–230

Not certified. Typically incompatible. Failure common in sustained commercial use.

ELO EXTENDED WARRANTY OPTIONS — BACKPACK® 5

COVERAGE	SKU	MSRP	WHAT IT ADDS
5 yr EloCare	E896322	**$69**	Extends the standard 2-year warranty to 5 years. Device shipped to Elo, repaired / replaced, and returned.
5 yr EloCare + AUR ★	E897104	**$130**	All of the above plus Advance Unit Replacement: Elo ships a replacement unit next business day.

★ *Recommended for all production floor displays.*
