

Acumatica

Integrations · ERP System

Sync Acumatica Production Orders to the floor and close them with transactions — automatically.

Acumatica Production Orders. Live on the Floor.

Production Orders and Inventory Items sync to the shop floor automatically. Job Transactions captured in MOLI post back to Acumatica, keeping your ERP accurate without re-entry.

MOLI connects to Acumatica via the REST API, polling for changes on your schedule.

KEY BENEFITS

- Production Orders and Inventory Items flow from Acumatica to MOLI, giving operators real-time access.
- Job Transactions recorded in MOLI post back to Acumatica — eliminating duplicate data entry.
- REST API connection with no on-premises agent required.

TECHNICAL DESCRIPTION

Bidirectional Production Order and Inventory sync between MOLI and Acumatica® cloud ERP

Synced Entities: Items, Jobs, Job Transactions
