MOLI Folder

Integrations · Document Management System / Library

Write live MOLI data exports to a local folder — any format, any downstream use.

MOLI Data, Where Your Tools Can Reach It.

The MOLI Broker for Windows, Linux, or macOS writes configured data exports to a local folder path on your schedule.

Any provisioned data type — Jobs, Items, People, and more — can be exported in list or detail format, making MOLI data available to any downstream tool that reads files.

KEY BENEFITS

- Selected MOLI data exports write automatically to a local folder via the MOLI Broker.
- Configure any combination of list and detail export formats per data type.
- No internet access or MOLI license required to view files.

TECHNICAL DESCRIPTION

Sync read-only copies of specified MOLI data to a local filesystem / network folder

Synced Entities: MOLI Data Exports
