

Microsoft SharePoint

Integrations · Document Management System / Library

Push live MOLI data exports to a SharePoint document library — automatically.

MOLI Data in SharePoint. Available to Your Whole Organization.

MOLI writes configured data exports to a SharePoint document library automatically when their data change. Any provisioned data type can be exported on a configurable schedule, making MOLI data available to any SharePoint or Teams user in your organization — with no per-user login required.

KEY BENEFITS

- MOLI data exports land in a configured SharePoint document library.
- Files are accessible to any SharePoint or Teams user in your organization.
- Azure app registration with client credentials — no per-user login or shared account required.

TECHNICAL DESCRIPTION

Sync read-only copies of specified MOLI data to a Microsoft® SharePoint® document library

Synced Entities: Any MOLI Data Export format
